### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Robert Carpenter on 4/13/2004.

The application has been amended as follows:

Claim 10 Cancel

Claim 12 delete "11" and insert "5".

*Examiner's Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance:

The amendment to independent claims of the present invention as submitted by the applicants on 3/15/2004 further narrowed the limitation of solvent to a mixture of water and organic solvent.

After careful reconsideration of the prior art as applied against present claims and interview conducted on 4/13/2004 it is examiner's position that in fact the prior art of record does not render the present invention obvious.

The prior art of record as applied against present claims discloses fully organic compositions for coating. Disclosure of JP 9-220524 utilizes silicon compound as a diluent and does not mention use of water. At the same time the prior art of KAWABATA teaches away from utilizing organic solvents. Therefore the combination of the two disclosures was not proper.

In view of the above discussion and examiner's amendment pending claims are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
